ONE COW! ONE CALF! ONE YEAR! (or less)

The Santa Gertrudis mama cow — a female with superior mothering

A mama cow with the ability to produce more than enough milk to wean a heavy, healthy calf.

And with the fertility to rebreed quickly to raise another calf the next year and every year of her long productive life — longevity combined with a superior genetic factory.

And that's what it takes to make money in the cattle business today.

SANTA GERTRUDIS, THE PROFITABLE BREED DEVELOPED BY CATTLEMEN FOR A REASON!!

Can Cut Taxes
Texas farmers and ranchers may be able to make good use of the 10 percent investment credit ruling to reduce their 1977 income taxes, notes an economist with the Texas Agricultural Extention Service. The credit applies to new or used depreciable property such as machinery, equipment or breeding livestock acquired during the tax year. The property must have a useful life of at least three years. Investment credit rethree years. Investment credit reduces taxes owed dollar for dollar. The maximum allowable credit is \$25,000 plus 50 percent of your tax liability above \$25,000.

Reorganizing USDA Would Put Cattlemen, Consumers in Trouble

Fort Worth — The reorganization of the U.S. Department of Agriculture, as proposed by the federal Office of Management and Budget, would mean serious trouble for cattlemen and consumers alike, says J. A. Whittenburg III. president of the Texas and Southwestern Cattle Raisers Associa-

"We oppose any effort to dismantle the USDA. Government must remain responsive to agriculture's needs. If these proposals are implemented, the lines of communication linking the individual cattleman and the government will be tied up in knots — a bureaucratic nightmare," the Amarilio rancher says.

TSCRA, a livestock producer group headquartered in Fort Worth, represents more than 14,000 cattlemen in Texas and surrounding states.

The OMB's blueprint for reorganization could take several forms and almost all would erode the importance of USDA. Strategists have earmarked the Forest Service, Soil Conservation Service and all food regulatory agencies under the USDA umbrella for reassignment to the Department of Interior, FDA, HEW and other departments. In some cases, these traditional USDA

If happened twice at the American Royal, it happened at the National Western and again at the Eastern National. Then Houston, Louisville and others: For two show seasons spanning three years, Chianina cross steers have been winning Grand and Reserve Championships on foot at the nation's most competitive shows, then going on to produce choice quality with yield grade 1 and 2 carcasses.

Last year alone, Chianina steem captured champlenships at five of the nation's top seven steer shows. At the Eastern National, the Grand Champion and Reserve Grand Champion steers on hoof, both Chlanina, had yield grades of 1.4 and 2.4. respectively and both graded choice. At the 1975 American Royal, where Chianina steers grabbed overall Grand Champion, Reserve Champion (4-H Division) and Reserve Champion Crossbred (FFA Division), yield grades of 2.2, 2.4, and 2.6 were recorded. Again, all graded choice. The 1974 American Royal Reserve Grand Champion on foot was also Reserve Champion Carcass with these stats: yield grade 1.4, quality grade, choice. The 1976 National Western Champion graded choice and had a yield grade of 2.6. At the 1974 North American ternational Grand Champion steer was not slaughtered.)

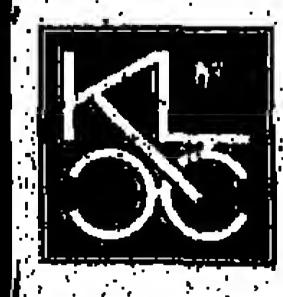

These are the highlights of over 15 championships for Chianina on hoof and/or rail. Championships are great but in the final analysis the real purpose of this message is to illustrate the value of Chianina genetics to you. Today's ||requirement for show steers is to be more closely attuned to the needs of the commercial industry. The new USDA grading system is here to stay. Chianina steers are consistently fulfilling the economic ideals for producers, feet | ers, packers and consumers. There has never been all better time for you to incorporate Chianina genetics into your own segment of the beef industry.

Expo, Louisville, the Grand Champion carcass steer had a yield grade of 2,05 and graded low prime under the old USDA. grading system. The Reserve Champion carcass, at the same show had a yield grade of 1.55 and graded choice. (The 1975 in-

Beef Truth Conference Predicts Good Years For Cattlemen

Fort Worth - The beef cattle i Truth Conference sponsored as part of the 55th National Polled Hereford Convention, Show and Sale held here Jan.

The panel of leading livestock experts told the nearly 1,000 cattlemen in attendance that in all likelihood cattle prices will be substantially higher in the coming years. Headlining the event were inspirational apeaker Dr. Norman Vincent Peale, former U.S. Secretary of Agriculture Earl Butz and former to goes without saying that no program or type of feed can

Texas Gov. John Connally.

"The inspirational and enthusiastic resentations by these three nationally newly-elected American Polled Hereford Association board chairman. Those panelists were Dr. George

president, National Live Stock and Meat Board: Dr. Robert Lewis, commodity jutures broker, Larned, Kan. Dr. Frank Baker, dean, college of agriculture, Oklahoma State University; and Dr. L. S. "Bill" Pope, dean, college of agriculture, New Mexico State.

Both Butz and Connally warned the crowd representing a diversity of cattle breeds and interests of the dangers of too much government control. They emphasized the importance of America's tree enterprise system and pointed out how callismen, have traditionally

typified this American promise.

Lewis said he believes that USDA figures have overestimated the total cattle numbers in this country. He stated that commercial feedlots have put 1.6 million more cattle on feed in the last six months and that we have overiquidated the national cow herd, with Jan. 1, 1978, figures reporting a drastic drop to 118,285,000 head. Consequently, according to Lewis, cattle prices are go-

ing to be substantially higher.
We all found this conference to be highly informative and very cheering,"

the best cattle situation.

Lloyd Clarkson, Murlin & Clarkson
Ranch, Winfield, Kan., remarked, "The
speeches we heard, especially Dr.
Lewis, make most of us want to go look
for that pot of gold at the end of the cattlemen's rainbow. It's been a long time

for the next several years," responded.
M. P. Moore, owner of CMR, Senatobla,
Miss., "and, I predict it will be 1988-84

ARE MONEY MAKERS

guarantee a profit on a particular set of livestock. However, It is possible to guarantee that with proper management a feed-Ing program will make livestock more valuable -- better money
